THE HICON SERIES

In this era of possible knowledge explosions on a finger tip, the biggest challenge is imparting knowledge to the young minds, in the best way it suits their levels and understanding.

The pages of **HICON SERIES** are created by a team of experts in Education and Teaching, so as to find possible solutions for the maximum issues that our class rooms face.

The pages are designed to create interest for the students in the learning activities and ensure their active involvement.

Involvement of the students play a vital role in making the process an easy one and it has to be achieved through creating interest in learning.

The concepts are presented in the easy and comfortable ways, for better understanding. There are ample practice sessions to make it sure that learning doesn't get done halfway.

Areas like **Value Corner**, **HOTS** etc. are aimed at ensuring the expanding thought process of the concepts understood by the student.

Thus, the **HICON SERIES** ensures the complete package of learning, keeping the student in the centre of all learning processes.

The Need for In-Service Training for Teachers and Its Effectiveness In School

In Service Teachers' Training Programme

We believe that the professional efficiency, ability, confidence and motivational aspects of the teachers, are also important for the better implementation of the efforts that our team had, behind developing this curriculum – The **Hicon Series**.

Designed and prepared with the ultimate aim of making elementary education both meaningful and purposeful, we offer **In-Service Teachers' Training Programmes**, in relation with the designed syllabus, for better and improved implementation of the curriculum.

Along with familiarising the curriculum and preparing them in the best suitable way for the kids in front, our training programme also helps the teachers to enable new understanding and instructional skills, with which the learning environment can be enhanced with their effectiveness, with ample opportunities to learn new concepts, methods and approaches through professional development.

Our team of experienced and expertise trainers will help you in improving the understanding of the Hicon Series. This is a planned process whereby the effectiveness of teachers collectively or individually is enhanced in response to new knowledge, new ideas and changing circumstances in order to improve, directly or indirectly the quality of pupils' education.

Micro Schedule & Year Plan.

Scheduling the entire syllabus across about ten months, based on the number of teaching days available and plan the entire academic year accordingly is a task that plays a pivotal role in making the execution of the curriculum a successful one.

To be with the teachers, to make the Hicon Series achieve the best in the classroom, we have done the Year planning and the micro-scheduling of the entire syllabus, adjusted with the academic calendar issued by the State Educational Board, so that it is easy to get along with.
